

*Current project: researching physical properties of double-doble galaxies*

**Anna Wójtowicz (final year bachelor student)**  
**supervisor: Dorota Koziel-Wierzbowska**

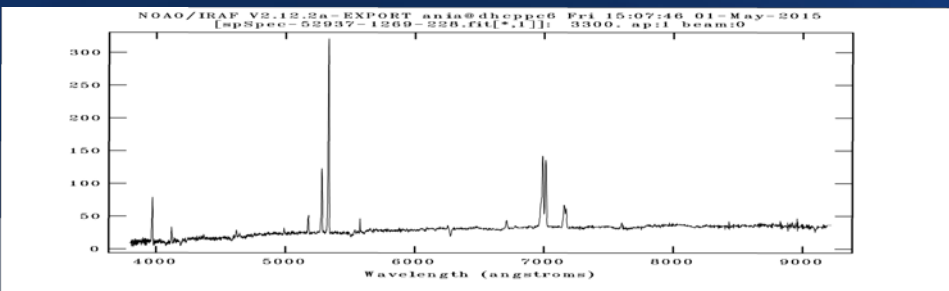

Reserach interests:

- galaxy evolution

-AGN

-modelling physical conditions

$v, \sigma, M^*, M,$   
population mixture

*Starlight - spectral syntesis code*

Astronomical Observatory of  
the Jagiellonian University

Cloudy Workshop  
4-8 May Warsaw
